

COVID-19 Symptoms

People with COVID-19 have had a wide range of symptoms ranging from mild symptoms to severe illness.

Symptoms may appear 2-14 days after exposure to the virus.

People with these symptoms or combinations of symptoms may have COVID-19:

- Cough
- Shortness of breath or difficulty breathing

Or at least two of these symptoms:

- Fever
- Chills
- Repeated shaking with chills
- Diarrhea
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

***This list is not all inclusive. Please consult your medical provider for any other symptoms that are severe or concerning to you.**

If you are sick:

- Stay home unless you are seeking health care.
- Call your healthcare provider from home if you are experiencing any of these symptoms.
- If you are experiencing a medical emergency, please call 911 and notify the operator of your current symptoms.
